## MESSAGE FROM THE CEO

It is my great pleasure to introduce System Security Solutions Company (3S), a leading system integrator within the Information & Communication Technologies as well as the Low Current industries. The aim of our organization is not simply to meet our customer's expectations, but to surpass them, proving our dedication to our clients and their goals. We are proud that this hard work has been acknowledged by our prestigious clients and their top-level executives that continue to work with us and refer us to others.

3S operates as a cohesive and seamless team and, as such, every member of our organization is highly skilled and vital to our customers' projects. We believe in investing in these professionals, each of which adds tremendous value to the reputation that 3S has built. After all, our team is our most valuable asset and a clear competitive advantage that should encourage customers to choose 3S over other organizations. In this highly competitive industry, 3S is proud to be on a growth trajectory with sustainable profitability. Stagnation is not our priority; leading the industry is our prerogative.

Since our inception in 2014, 3S has been honored to serve a variety of industries in fulfilling their ICT and Low Current needs and requirements. We look forward to maintaining our current customer relationships while also expanding our capabilities to serve new clients in exciting industries. At 3S, our biggest compliment is the referrals that our customers give us, confident in our services and our ability to surpass expectations with our deliverables.

Yours Sincerely,

**Abdulaziz M. Aljabr**  
**CEO**

## INTRODUCTION

System Security Solutions Company (3S) was founded in 2014 and is headquartered in Al-Khobar, Saudi Arabia. From its conception, 3S has been interested in establishing a professional system integrator for ICT and Low Current solutions within Saudi Arabia. Now, we are happy to be expanding within the GCC and further across the Middle East. The organization is known as one of the leading system integrators today, providing customers with turn-key solutions to their challenges, from initial sketches to installation and testing, and even later to commissioning and after-sales service.

Our team consists of some of the most highly-qualified, talented and experienced engineers and professionals. The organization plans, designs, implements, and manages these key ICT and Low Current solutions for your business. 3S is proactive in providing a set of proven solutions, services and support within the region. In turn, these elements positively affect the bottom line of our clients by impacting their competitive edge. The partnerships we are building with leading manufacturers of ICT and Low Current products and services will help us to pass these savings on to our customers.

## VISION

To become a world-renowned top-of-mind proactive leader in the ICT and Low Current industry through our dedication to our customers and the products and services that we offer.

## MISSION

Our purpose is to deliver optimized turn-key solutions to our clients through innovation, treating our customers the same way we would want our vendors to treat us. Ensuring quality through our partnerships with leaders in the industry, as well as the cohesive and competitive workforce that we have developed, will guarantee that this mission is realized.

## VALUE PROPOSITION

3S's highly skilled, trained, and motivated team customizes its unique products and creative solutions to the needs of our clients. It is our team that allows our organization to exceed the high standards of customer satisfaction that our clients demand. We look forward to working together with your organization to understand your business objectives and put systems in place to ensure your goals are realized. We want our team to be part of your team as well.

# COMMITMENT TO QUALITY, SAFETY AND ENVIRONMENT POLICIES

**3S** is constantly committed to supply products and provide services of high quality that will merit and earn customer satisfactions, through an environment friendly operation and safe work environment. To ensure the best possible system for managing our business, we have successfully implemented an Integrated Management System into every aspect of our business. Our objective is one of continuous improvement in all aspects of the Integrated Management System, based on the principles of ISO9001:2015, ISO14001:2015, and OHSAS18001:2007.

## QUALITY ASSURANCE

- Provide products and services that meet customer and regulatory requirements
- Enhance customer satisfactions
- Complies with Contractual obligations, international standards, customers' needs and specifications

## OCCUPATIONAL HEALTH AND SAFETY COMMITMENT

- Implemented as an integrated management system within 3S
- Fulfilling and meeting all requirements of the international standards
- Prevention of injury and ill health
- Increase safety awareness and motivation amongst employees

## ENVIRONMENTAL COMMITMENT

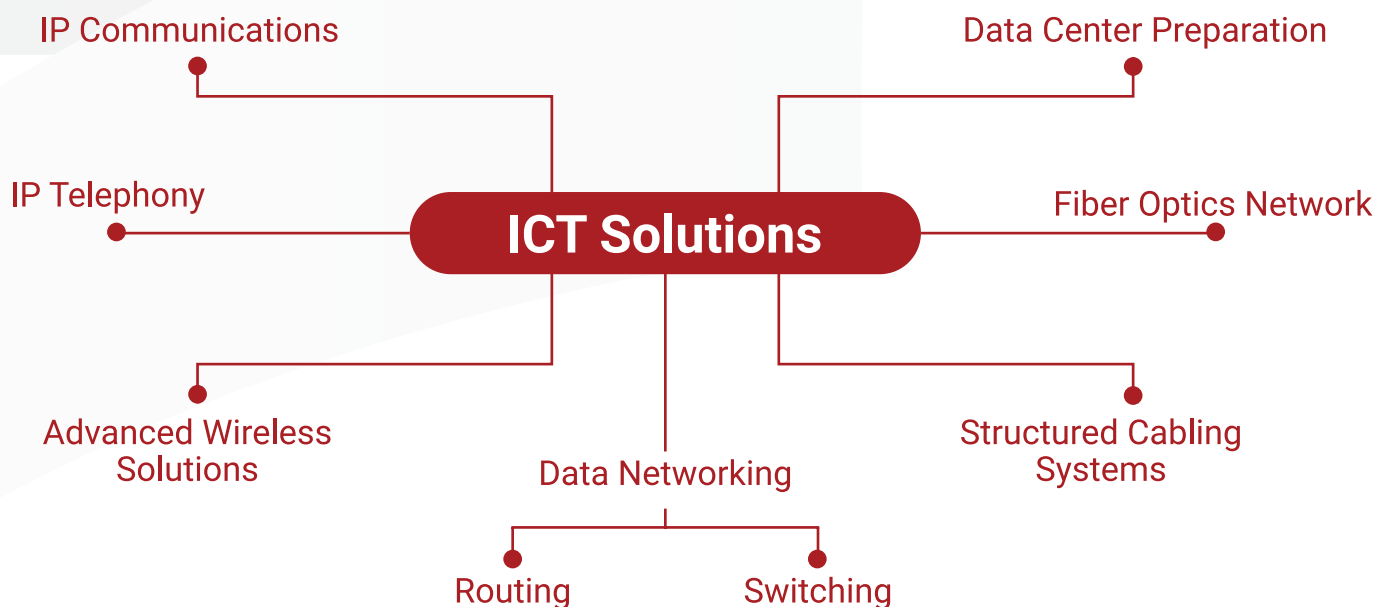

- Protection of environment including, prevention of environment pollution
- Setting up effective and efficient controls that minimize the environment incidents and pollutions
- Our commitment aims to define a reliable approach for 3S to identify and manage environmental risks and take advantage of environmental opportunities

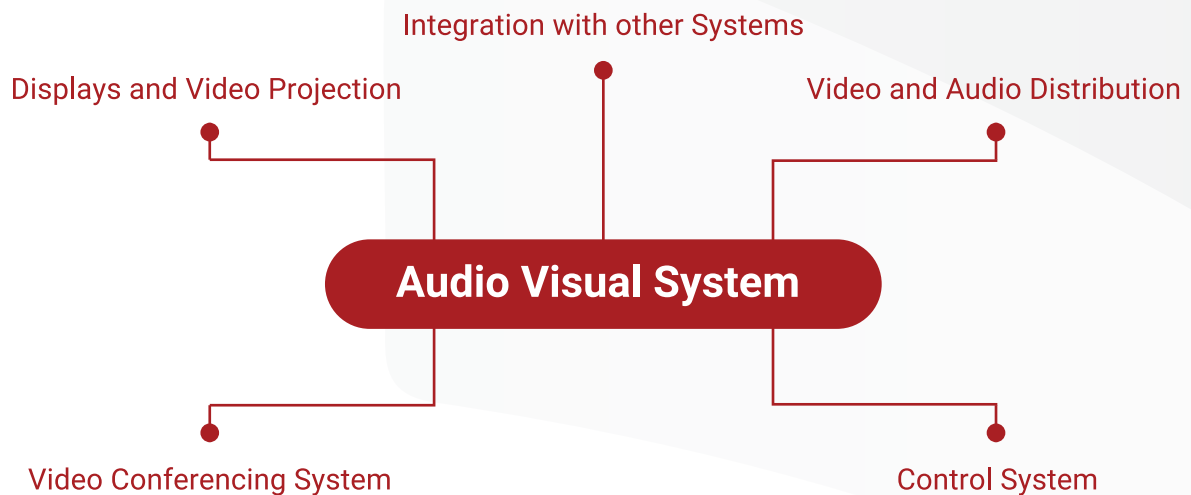

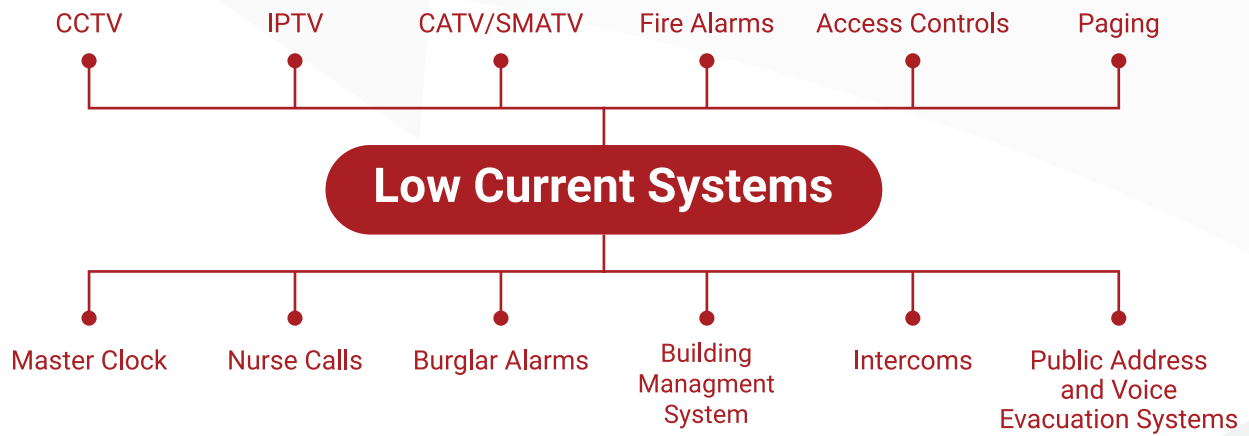

## 3S SOLUTIONS & SERVICES

### Products and Solutions

3S prides itself on providing our customers a wide variety of diverse products and services that are the most innovative within the ICT and Low Current industry. This includes security from global manufacturers and the skills to integrate these products into your specific network. Our investment and dedication to our team helps us to ensure that we are highly competent in being on the cutting-edge of these solutions. Our full portfolio of products includes the following:

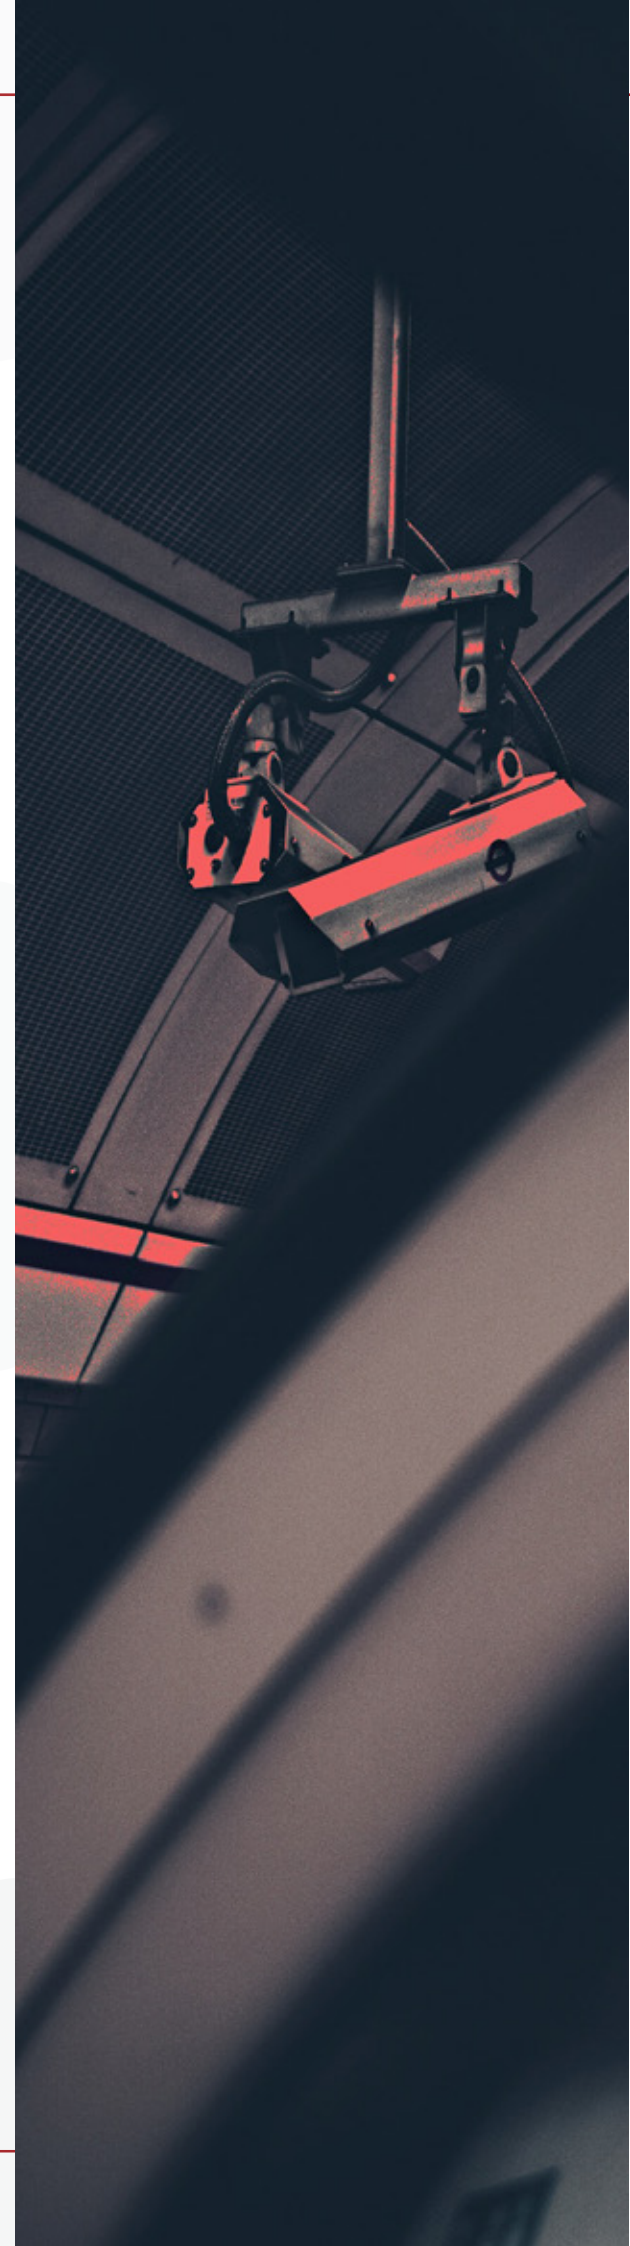

## Architectural & Entertainment Lighting Solutions

## SYSTEMS INTEGRATION SERVICES

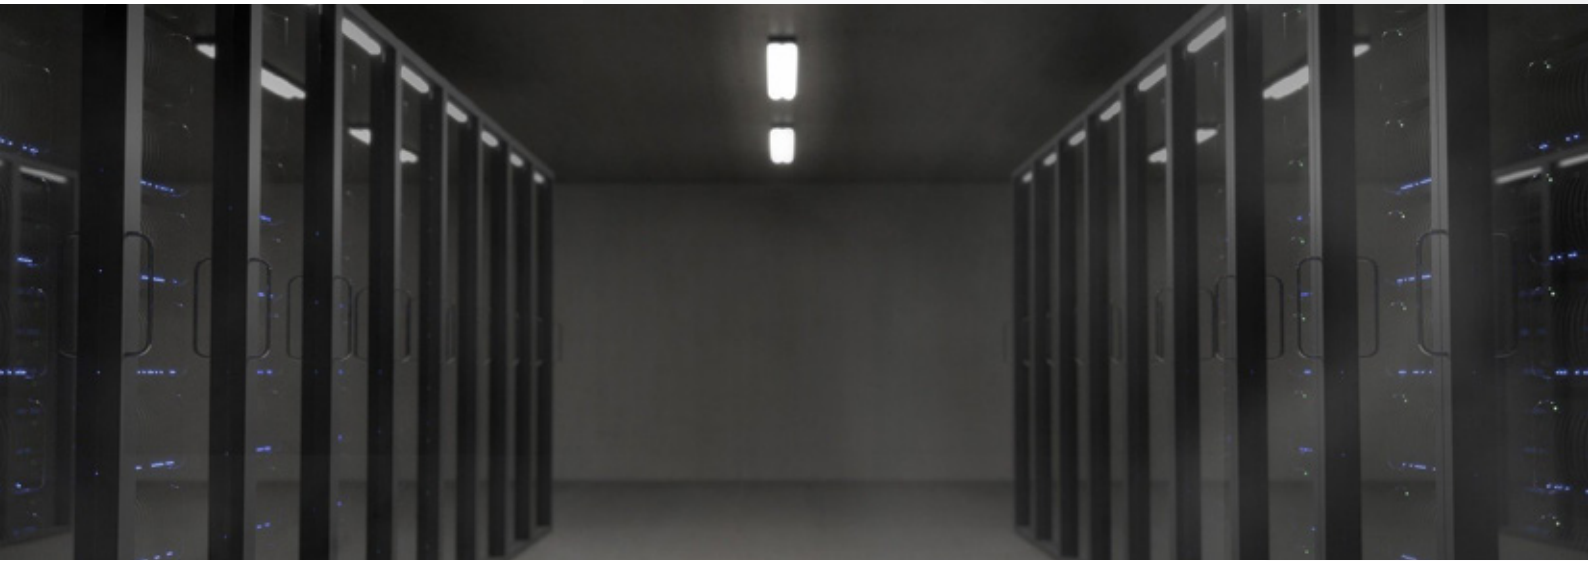

Loyalty to our customers is one of our top priorities. We pride ourselves on training in diverse areas to be able to work within a wide variety of systems. 3S aims to produce truly exceptional systems crafted as per the needs of your organization. This objective outlook allows for the customer to truly work with the best systems, not just the ones that are most convenient for us.

Through a robust research process in searching for solutions to our clients' needs coupled with a deep understanding of the market's leading product offering, 3S's services are niche and tailored for your unique business. We have made a commitment to our clients that we will not attempt to over sell you and instead we rely on the longevity of our business relationships. We will be honest in providing potential solutions, competitive prices and exceptional service. We are confident in our services, sure that you will return to our organization for all future needs. Solutions are built from the ground up, and using multiple manufacturers and software providers can ensure that your best interests are of the highest priority and that prices remain competitive.

## PROFESSIONAL SERVICES

Leading several implementation and integration projects throughout the region within the last several years has allowed 3S to gain experience in a variety of industries within both private and public sectors. Given the expertise and proficiency of the individuals, our team consists of certified developers, implementation specialists and engineers, which are organized in order to attend to the challenges of our clients. Their diverse experiences and unique sets of skills allow the organization to compete for some of the region's top clients, offering services that encapsulate the entirety of the process, from design to supply, installation, testing and commissioning.

## OPERATION AND MAINTENANCE SERVICES

3S further strengthens our offerings with operation and maintenance contracts for all of the products we provide. It is easy for a company to install products and have them impress you upon installation, but 3S is building long-term partnerships with our clients, monitoring your needs, providing customer services, and customizing the solutions. Continuous improvement is key. That being said, 3S currently offers both long- and short-term O&M services and contracts for all products and services.

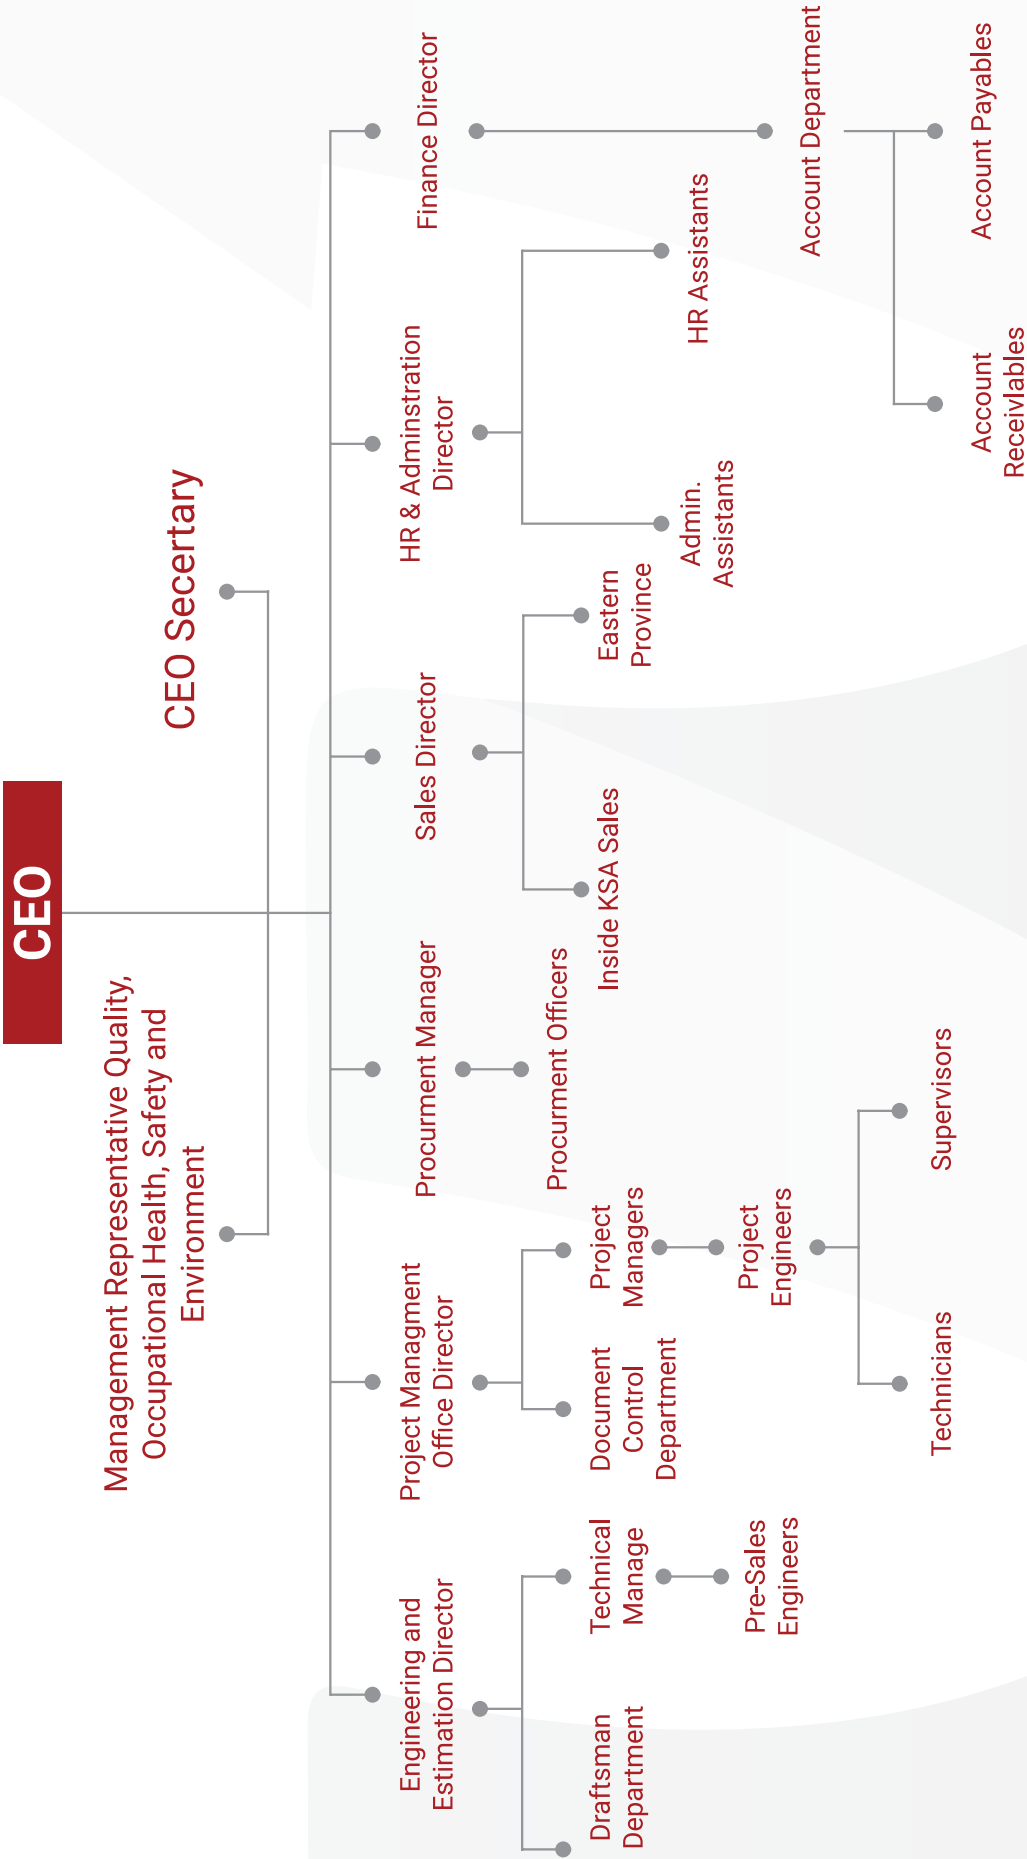

## OUR PARTNER

3S partners with the top technology leaders from across the globe. These partnerships are essential in ensuring that our customers are in good hands with our in-depth knowledge and experience coupled with that of our partners. 3S is confident that the synergies with the vendors and the relationships that we have built will create the best possible results, which is what we deliver to our clients so as to surpass their expectations. We work with experts in each field in order to provide technological solutions for integration in the various products.

# ORGANIZATIONAL STRUCTURE

## MEET OUR TEAM

The 3S team's diverse experiences and knowledge are complemented by the cohesiveness of the team and its strong technical background. With a high-level understanding of the industry, our team's expertise is highlighted below:

### ABDULAZIZ ALJABR

Founder and CEO

Abdulaziz earned his Master's degree in Management of Information Technology from Hood College in the United States. Prior to that, he earned his Bachelor's degree in Computer Science from the University of Findlay also in the United States. He has published numerous articles in peer reviewed journals, such as Cloud Computing for Increased Business Value. As the CEO, he has led the continuous development of the team and has pioneered the organization's affinity for staying on the cutting edge of the most innovative products and services that are offered.

### MAHER ABOUKHALED

Project Management Office Manager

Maher earned his Bachelor's degree in Communication and Electronics Engineering from Beirut Arab University in Lebanon. His experience enables him to provide the necessary leadership in the best practices in order to exceed the customer's expectations. He ensures that the operational issues of the PMO are solved, focusing on the project's interface with project leaders, teams, technology, etc...

### ZAHİ CHOUGHARI

Head of Engineering and Estimation Department

Zahi's Bachelor's degree was earned in Computer Communication Engineering from American University of Science and Technology in Lebanon. He then went on to earn his Master's degree in Electrical Engineering from the University of Balamand in Lebanon as well. His pre-sales experiences have been instrumental in ensuring that the engineering processes that are being implemented will meet the business objectives and needs of our clients based on price, quality, and delivery.

## ALI ABBAS

### Sales Manager

Ali earned his Bachelor's degree in Electrical and Communication Engineering from the Lebanese University in Beirut, Lebanon. His robust experience in the sales industry has enabled his success in approaching clients within both commercial and industrial sectors in order to achieve the targets for ICT and BMS products. Additionally, he has taken the initiative in implementing a CRM Software in order to build an internal client database and maintaining these relationships across the steps of the sales pipeline.

## HASSAN AL-RADAIDEH

### Technical Manager

Hassan's Bachelor's degree in Information Technology with a concentration in Software Engineering was earned at Philadelphia University in Jordan. He is certified in design and installation for multiple vendors in the Low Current industry and is also responsible for providing both technical proposals and solutions to our clients as per their specifications and the project's requirements. Lastly, Hassan provides technical direction for development, design, and systems integration.

## ASHRAF OSMAN

### Finance Manager

Ashraf earned his Bachelor's degree in Accounting from Omdurman Ahlia University in Sudan. His work experience in Finance has enabled him to ensure the company's financial planning is strategic. In addition to preparing financial statements and business activity reports, Ashraf is also responsible for the forecasts of the growth for the organization's managerial decisions. Finally, he is the main contact point with the financial auditors.

## MOHAMMED HAFEEZ

### Procurement Manager

Mohammed earned his Bachelor's degree in Commerce from Kakatiya University in India. As the Procurement Manager, Mohammed searches for optimized suppliers and vendors and then initiates contact with the businesses to develop partnerships. He negotiates with the vendors as well in order to secure advantageous terms, with the savings then passed on to our clients.

## **MOHAMMED ALHARTHI**

### Management Representative

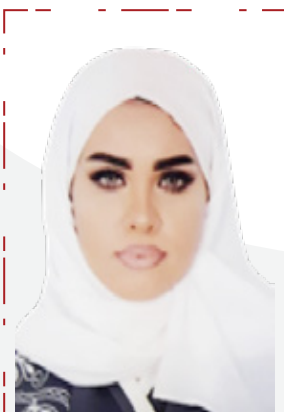

Mohammed earned his Bachelor's degree in Finance from Dammam University in Saudi Arabia. He oversees the functions and procedures of each and every department, ensuring that they run smoothly and cohesively. He is the main contact for certification requirements with TUV Nord. His main focus is ensuring that quality, occupational health, safety and environment of all procedures and processes within the various departments are at the optimal level that our organization prides itself on.

## **AHMAD ALQAHTANI**

### Administration and Human Resource Manager

Ahmad has been trained in a variety of subjects within the fields of Administration and Human Resources, earning multiple diplomas along the way. His role is critical to the company and its culture: ensuring that the organization's personal records are accurately maintained, assisting in the preparation of the company's payroll, and managing HR documentation.

## **MONA ALHUMOD**

### Business Administration Assistant Manager

Mona earned her Bachelor's degree in Administration from King Faisal University. Her role is found within the Human Resource and Administration Department wherein she oversees all HR and administrative procedures, codifying the procedures and ensuring their application from all employees. Mona's main focus is establishing a work environment that is conducive to the success of the organization in terms of professionalism and skills.

**TEAMWORK IS THE  
ABILITY TO WORK  
TOGETHER TOWARD  
A COMMON VISION**
